PROFESSIONAL SUMMARY

Fresh BSIT graduate with hands-on experience in front-end development and user-centered design — proven in delivering responsive, production-ready interfaces across design-to-deployment workflows, including a government-deployed court records system and a full-stack capstone rated 4.47/5.00 (Very Good) under ISO/IEC 25010:2023.

EDUCATION

Bachelor of Science in Information Technology **June 2026**

La Consolacion University Philippines — Malolos, Bulacan

EXPERIENCE

Frontend Developer Intern — Regional Trial Court, Malolos City, Bulacan **Feb – May 2026**

- Led frontend development and UI/UX design for the RTC Database System; contributed to backend logic (Next.js App Router, SQLite/Prisma), QA testing, and migration of 3+ years of court case records from Excel to the new digital platform — reducing manual case lookup time for attorneys and staff.

TECHNICAL SKILLS

Design: Figma, Wireframing, Prototyping, Responsive Design, Accessibility (WCAG AA)

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React, Next.js, Tailwind CSS, DaisyUI, Recharts, GSAP, Framer Motion

Backend: Next.js Server Actions / API Routes, Node.js, Express.js, Firebase, Supabase, Prisma

Tools: Git, GitHub, Docker, Tailscale, pnpm Workspaces

PROJECTS

QRUSH — Web-Based Barangay Document Request System **2025 – 2026**

Group Leader · Lead Developer · UI/UX Designer

- Designed 25+ screens in Figma and built the full-stack system end-to-end — masterlist-based resident verification with SMS OTP gate, digital ticket and QR code generation, claim window management, and a rule-scoped assistive chatbot for barangay queries
- Implemented role-based dashboards (Admin, Staff, Kapitan) with tamper-evident Firebase activity logs, API rate limiting, and PIN-based secondary authentication; automated claim expiry and unclaimed document flagging via Cloud Functions.
- Evaluated against ISO/IEC 25010:2023 by 40 respondents — achieved a grand mean of 4.47 (Very Good) with Excellent ratings across Functional Suitability, Security, Maintainability, Compatibility, and Interaction Capability.

RTC Database System — Regional Trial Court Malolos (Internship) **Feb – May 2026**

Frontend Developer · UI/UX Designer · QA Tester

- Built a case records interface designed to match Excel workflows for notarial, criminal, and civil court archives — deployed on a LAN-hosted, Docker/Tailscale/WebSocket multi-device architecture adopted by attorneys and staff.
- Conducted QA testing with structured documentation; system replaced manual Excel workflows and measurably improved case search and retrieval speed.

CERTIFICATIONS

- **JavaScript Algorithms & Data Structures** · freeCodeCamp (Jan 2026)
- **Responsive Web Design v8** · freeCodeCamp (Jan 2026)
- **Front End Development Libraries** · freeCodeCamp (Dec 2025)
- **IT Specialist: Device Config & Management** · Certiport / Pearson VUE (Dec 2025)
