PROFESSIONAL SUMMARY

BSIT graduate with 1+ year of experience in UI/UX design and web design — from user research and wireframing through high-fidelity Figma prototypes and live deployment. Delivered multiple production projects including a government-deployed interface and a full-stack platform evaluated at 4.47/5.00 under ISO/IEC 25010:2023. Designs with implementation in mind — comfortable taking work from Figma to React without losing the design intent.

EDUCATION

Bachelor of Science in Information Technology **June 2026**

La Consolacion University Philippines — Malolos, Bulacan

EXPERIENCE

UI/UX Designer & Frontend Developer Intern — Regional Trial Court, Malolos City, Bulacan **Feb – May 2026**

- Designed the court records interface around existing Excel mental models — conducted user research with attorneys and staff, mapped their workflows, and translated findings into a UI adopted daily across the Regional Trial Court.
- Migrated 3+ years of case records (notarial, criminal, civil) from manual Excel to a structured digital platform; also handled frontend implementation and structured QA testing.

TECHNICAL SKILLS

Design: Figma, Wireframing, Prototyping, User Research, Usability Testing, Information Architecture, Interaction Design, Design Systems, Responsive Design, Accessibility (WCAG AA)

Implementation: HTML5, CSS3, JavaScript, React, Next.js, Tailwind CSS, GSAP, Framer Motion

PROJECTS

QRUSH — Web-Based Barangay Document Request System **Dec 2025 – Jan 2026**

Group Leader · UI/UX Designer · Frontend Developer

- Designed 25+ Figma screens across resident, staff, and admin flows — covering the full user journey from request submission to QR-based transaction completion, digital ticket generation, and multi-channel notifications.
- Evaluated against ISO/IEC 25010:2023 by 40 respondents — achieved a grand mean of 4.47 (Very Good) with Excellent ratings across Functional Suitability, Security, Maintainability, Compatibility, and Interaction Capability.
- Handled frontend implementation in React — designed and shipped without a separate developer.

LaConsolaNet! — Social Platform UI/UX Redesign **May 2026**

UI/UX Designer · Freelance

- Conducted rapid redesign across 3 deliverables — web app, mobile screens (iPhone 14/15 Pro Max), and landing page — delivered within 5 days before capstone defense.
- Rebuilt visual hierarchy, navigation structure, and component language to align with LCUP's institutional identity; unified design system applied consistently across all 3 surfaces.
- Client rated the redesign 4.9/5.0 — team reported stronger evaluator confidence during defense presentation.
